

ANNUAL SUSTAINABILITY REPORT CSJMU KANPUR

Higher Education Institutions (HEIs) are increasingly expected to move beyond traditional academic roles and actively address societal challenges through sustainability. CSJMU, Kanpur a prominent state university with a rich legacy of knowledge dissemination engaged our team to prepare its inaugural Annual Sustainability Report for 2024–25, anchored in the UN Sustainable Development Goals (SDGs) and targeting Net Zero carbon emissions by 2030.

SCOPE OF WORK:

Benchmarking: Review of sustainability reports and policies of leading universities worldwide.

SDG Mapping: Aligning CSJMU Interventions with SDGs.

Policy Review: Analysis of national and institutional policy frameworks applicable to HEIs.

Alignment Audit: Aligning CSJMU Initiatives with Government Sustainability Policies.

Net Zero Strategy: Quantification of Scope 1 & 2 carbon emissions and development of a net Zero roadmap for 2030.

KEY SDGS ADDRESSED:

METHODOLOGY & APPROACH:

Desk Review: Comparative analysis of global HEI sustainability frameworks (GRI, STARS, QS).

Stakeholder Engagement: Consultations with faculty, administration, students, and Partners.

Data Collection: Energy, water, waste, and transport data across all university campuses.

Carbon Accounting: Scope 1 & 2 GHG inventory using IPCC-aligned emission factors.

RATIONALE:

Sustainability reporting serves as a strategic catalyst fostering transparency, accountability, and innovation while positioning CSJMU as a leader in responsible education and attracting globally conscious students, faculty, and partners.

KEY BENEFITS:

- Strengthens global rankings & accreditation standing.
- Demonstrates regulatory & ESG compliance.

- Unlocks alumni, donor, and green funding opportunities.
- Creates competitive differentiation for top talent.
- Drives long-term cost savings via resource efficiency.
- Builds community trust through transparent reporting.
- Catalyses interdisciplinary sustainability research.
- Supports India Net Zero 2070 national commitments.

Net Zero Target:

CSJMU targets Net Zero carbon emissions by 2030 through quantified Scope & baselines, a phased decarbonisation roadmap, and integration of renewable energy across its campuses.

KEY DELIVERABLES:

- SDG-mapped interventions register.
- Scope 1 & 2 GHG emissions inventory.
- Net Zero 2030 strategic roadmap.
- GRI & BRSR-aligned Sustainability Report.
- Policy alignment & gap analysis matrix.
